

WIRES AND CABLES
FOR DATA CENTRE

World-class Manufacturing Facilities

Polycab wires and cables are manufactured at modern plants that use state-of-the-art machinery and conform to globally accepted quality standards. The products have been accredited for quality, health, safety and environment standards by the world's leading testing and certification agencies.

Schedule a Meeting

Call us or send us an email and we'll connect you with a Polycab expert who can share more details about the product and answer any question you have.

Enabling
business enterprises
to make the most of
their data

Polycab is the largest manufacturer of wires & cables in India, with products that make a positive difference in the lives of millions of people. Ever responsive to evolving demands, Polycab has set its sights on providing cutting edge support to Data Centres, thus ensuring that businesses run at their peak potential.

This catalogue will help you to get familiar with Polycab's range of cables and wires specifically designed for a whole gamut of Data Centre operations.

WIDE PRODUCT RANGE

Sl. No.	Product Description	Applications
1	Polycab LT Power Cable	Supplies power from the transformer to the building.
2	Multicore Flexible Polycab I90 XZZ-K/XZXZ-K	This fire retardant, heat resistant and zero halogen cable is ideal for indoor usage and for supplying power to networking devices.
3	Polycab B90 XZ-K	The wire's fire retardant, heat resistant and zero halogen properties make it suitable for building wiring.
4	Polycab CAT 6 and CAT 6a	Suitable for use in high speed network devices.
5	RS 485	Use it for short distance communication between communication devices.
6	Polycab Fieldbus Cable	It is used to pick up signal in series from different electronic devices and drop to the control and monitoring system.
7	Polycab BMS Cable	Is used for collecting information and signal from the building utility system and drop to the monitoring system.
8	Polycab CCTV Cable	Is used for building and internal security system.
9	Polycab Single core FS Cable	This cable is used in data centre rooms, archives and record rooms for emergency lighting system.
10	Polycab Multicore FS Cable	The cable is used in corridor, lift and exit area for fire safety systems.
11	Polycab Fire Alarm Cable	Is used to supply power to the fire security device.
12	Polycab Shielded Fire Alarm cable	Is used to send a signal from smoke sensor or fire sensor to the fire security system.
13	Polycab RG 6F/RG 59F	Low loss coaxial cable for high speed data transmission.
14	Optical Fibre	High speed data transmission from the tower control room.
